# PRODUCT OVERVIEW

## AAA Server Stack

Robust, Scalable AAA Server Framework

One stop solution for any type of network (Wireline/Wireless)

## iSMP

Simplified IP Service Management Platform

CRM, Billing, Inventory, Hotspot Management

## i2iACS Platform

Unified Device Management Platform

TR-069, SNMP, SSH Script, Custom Protocol Support

# Technologies

Proven Proprietary Implementation of AAA Server with **2000+ TPS** on Standard 4 Core CPU

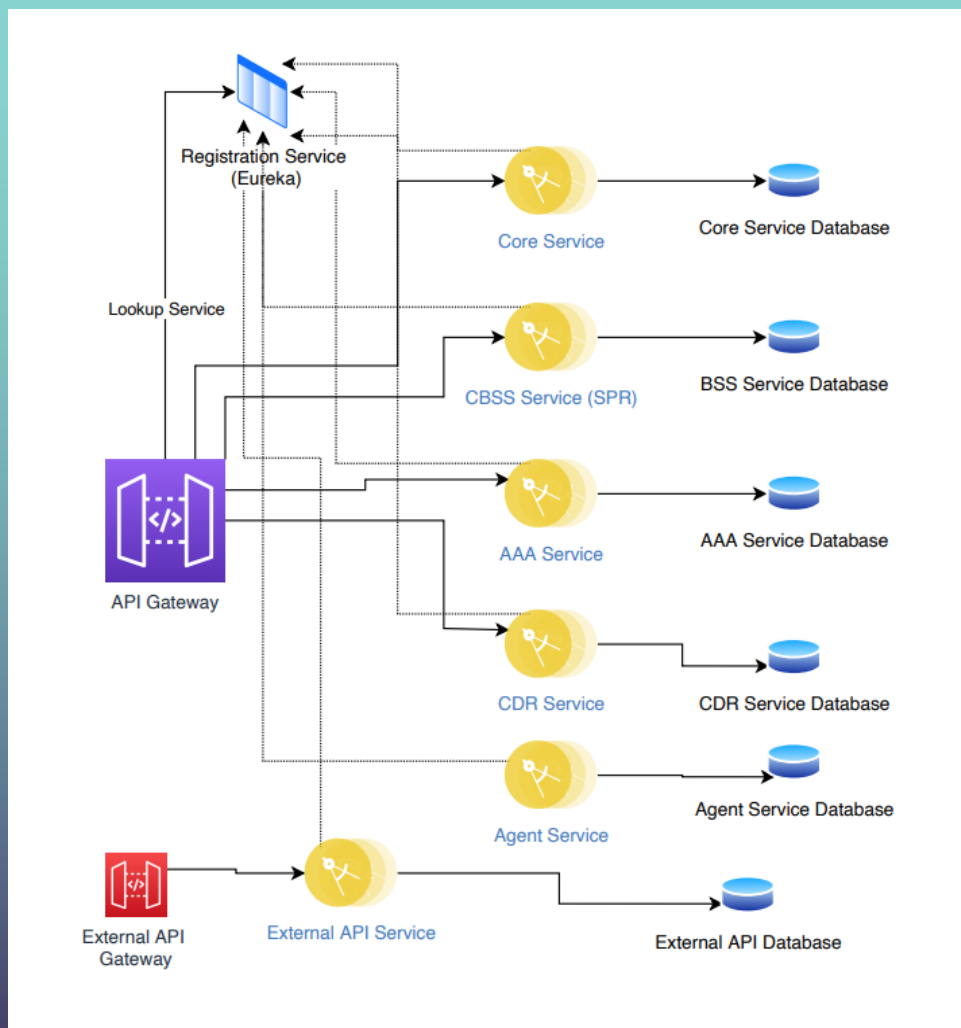

Independently Manageable **Micro Service Architecture**

Flexible, Scalable & Failover Deployment Option

Cloud ready, can be deployed into Container Environment

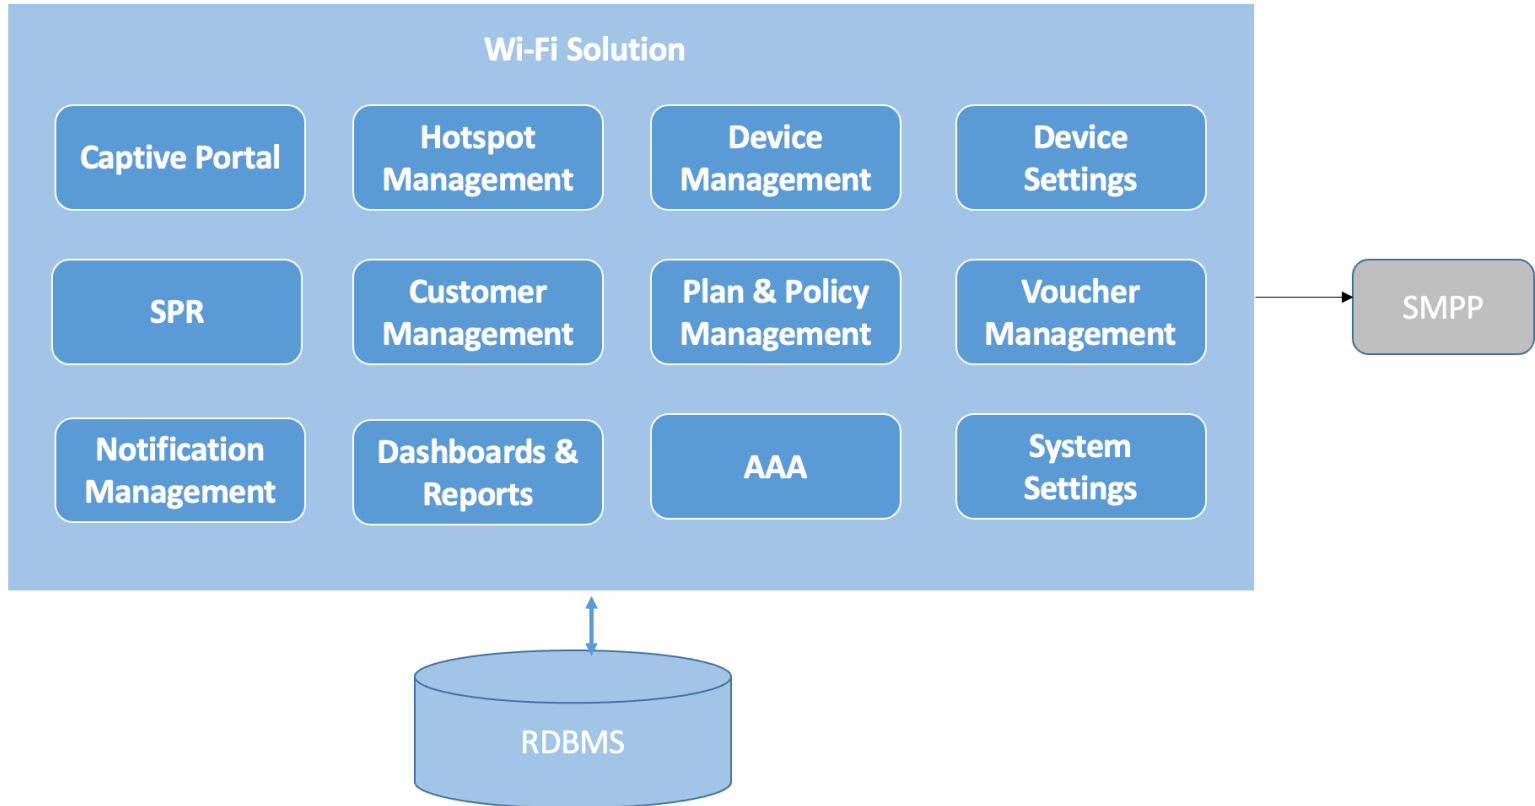

# MICRO SERVICE ARCHITECTURE

# WiFi Service Management Platform

## Wi-Fi Solution Module Map

# WiFi SMP

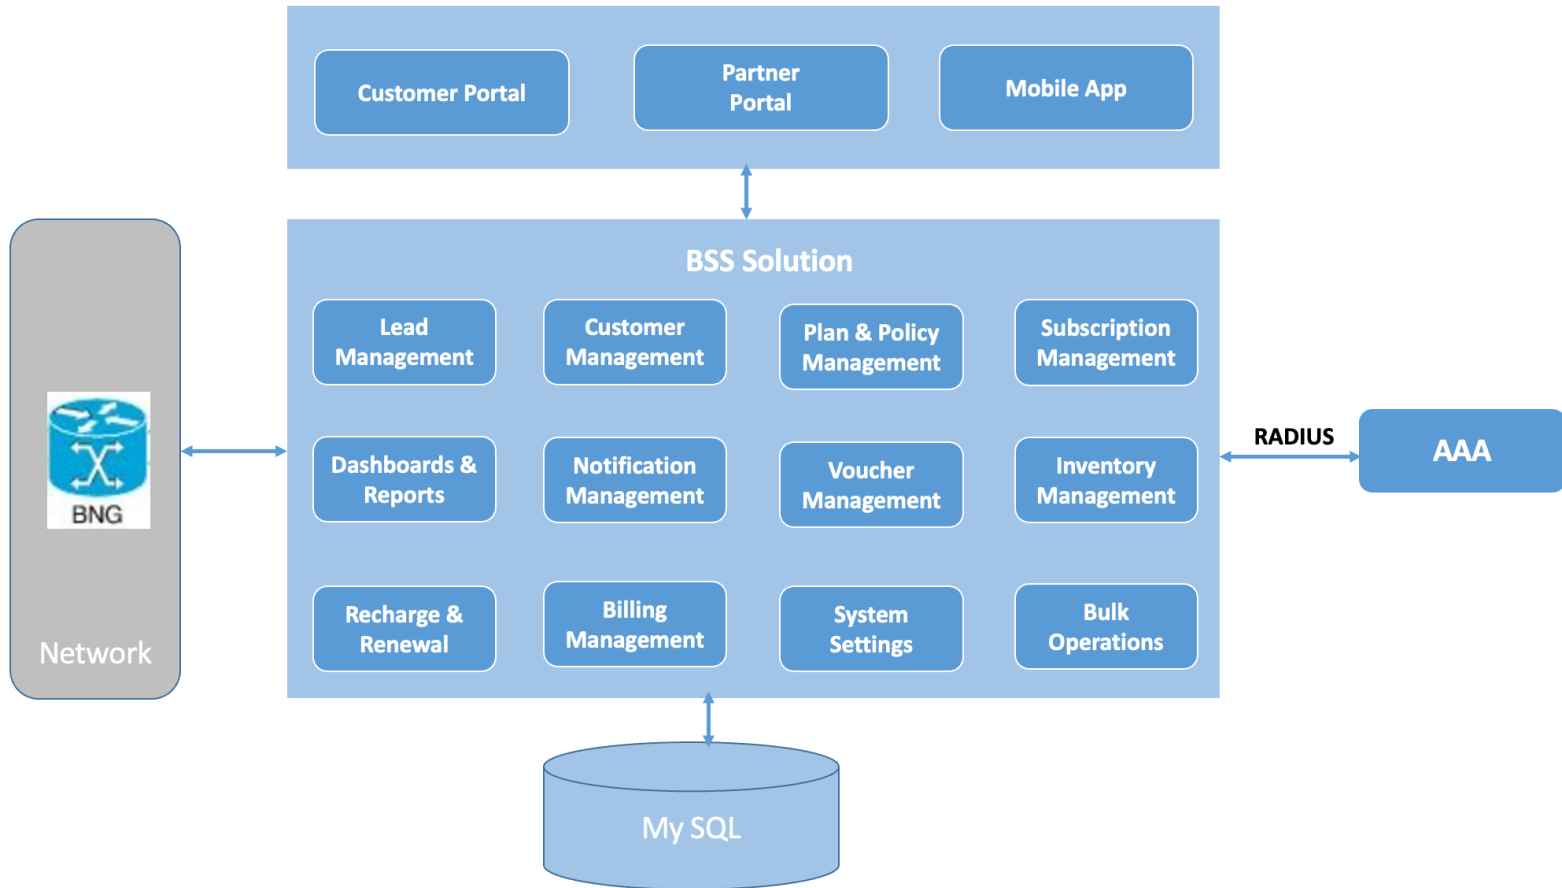

- Enable operators setup and manage Enterprise WiFi network.
- Enhanced monetization opportunities and customer experience.
- Seamless access authentication methods (Supports EAP-MD5, TLS, TTLS, PEAP)
- Location based Hotspots with different business polices
- Dynamic Captive Portal & Advertisement
- Service Convergence, Single service account for Broadband & WiFi
- Flexible Deployment Options
- Scalable and High Availability
