About the Joshis

They are well known as the Dynamic Duo of Homeopathy. They have been practicing together for more than 15 years and regularly teaching all over the world.

Their insight into the noble gases, imponderable remedies and nosodes has won them international acclaim.

The Joshi's have conducted many provings, some of which are from the Rutaceae family and Imponderables and the proving of Rabbit.

Dr Bhawisha Joshi's previous book 'Homeopathy & Patterns in the Periodic Table' is a very popular book amongst homeopaths and has been translated into German, Russian and Japanese languages just to name a few.

From the pioneers of the idea of Nosodes and Imponderables

A book that explains the deepest issues of nosodes and imponderables in a manner you will be able to use them and find many more in your own practice

A whole new dimension to miasms and miasmatic relationship between the miasms

Nosodes and Imponderables come alive!

In this book the main sensations behind the nosodes and imponderables are explained by Dr. Bhawisha and Dr. Shachindra Joshi.

The authors have been engaged with the subject since 2003 and have since then worked and lectured on the basic feeling of these remedies through the Sensation method.

The reader can follow the journey of the Joshis' and see how they came to the understanding of these remedies.

Different nosodes and imponderables have been demonstrated and well explained through cases each of which have at least 2 years of follow up. The book also helps to understand the basic difference between the different miasms as well as their nosodes.

A whole new concept on miasmatic relationships has been discovered by the Joshis and put down in this book.

The Joshis' rich and intriguing experiences with imponderables have been explored in-depth. Furthermore we can read differentiation with similar remedy groups in both Nosode and Imponderable categories.

The concepts in the book will help you use these remedies and also recognize many new ones in your own practice.

Homeopathy and Patterns in the Periodic table

This book was one of the best sellers in 2009 at Minimum Price Homeopathic Books.

Dr Bhawisha Joshi has put together a comprehensive understanding of the periodic table and detailed the picture of elements of Rows 1-3.

Every element has been explored to the utmost detail. The left and the right side of the periodic table are effectively compared and an entire section is dedicated to salt remedies.

Dr. Bhawisha's insight on Noble gases and her vast experiences with them have been put down for the first time in Homeopathic history. The style of the book is simple and reader friendly. Tables in the book help for quick references of the elements.

Emphasis on element-differentiation and also specific themes related to each element make the book a must have for everyone in the Homeopathic Fraternity
