Environment & Technology: MS SQL 2008, JavaScript library ExtJs 4.2, Apache Server, Visual Source Safe, ASP.net 4.5 (MVC framework), Web API.

Venture Labour Pvt. Ltd

Team Lead

Projects:

Client Name: AgCareers.com

Duration: 4 months

URL: <http://www.AgCareers.com/>

Team Size: 4

Description: AGCareers.com is to target jobseekers from the agriculture domain.

This application is built on SQL 2000 and some module in SQL 2008 with ASP.NET 2.0

It was built in cold fusion, we converted the application into asp.net admin module database in 2000 and jobseekers and employers database is in 2008, separate web service is written to make sure data get sync at both the servers.

- Interacted with the Clients to get the requirements
- Created a REST API for other customers to consume and access our database.

Environment: MS SQL 2000, MS SQL 2008, .NET FRAMEWORK 2.0, ASP.NET, C#, WINDOWS 2003 SERVER, JAVASCRIPT, JQuery

Nurture3
Sr. Software Developer
Projects:

Client Name: Nurture3

Duration: 4 months

URL: <http://www.e-resume.us/>

Team Size: 4

Description: e-resume.us is a website that targets US jobseekers. This application has three major parts: Resume Distribution, resume creation & Personal Job Hunt Manager (PJHM). Resume creation (CVC) is built on ASP 3.0 and PJHM is built on ASP.NET 2.0.

Users come to the website to register themselves and have to complete all the CVC steps.

In the end after purchasing the service system, their CV is built in DOC format as well HTML format.

This application also offers a service called PJHM, in which a dedicated person will search for a job and send it to the jobseeker. If the jobseeker approves it then PJH M will apply it on his behalf. Sending jobs to the jobseeker module is entirely built upon ASP.NET 2.0.

- Interacted with the BDM to get the requirements
- Was involved in Database Designing
- Interacted with the customer support in order to fix issues on Resume Distribution
- Was involved in Resume Creation and Personal Job Hunt Manager (PJHM)

Environment: MS SQL 2000, .NET FRAMEWORK 2.0, ASP, ASP.NET, C#, WINDOWS 2003 SERVER, JAVASCRIPT

Client Name: Nurture3

Duration: 8 months

URL: <http://www.theeducationprofessionals.com/>

Team Size: 2

Description: This application is built entirely on web2.0 standards, providing services on the internet to the jobseeker and recruiters. This application has two major modules jobseeker section and recruiters

For the jobseekers following offers has been built

1. Search for the job
2. Save jobs
3. Rate jobs
4. Apply for the job
5. Track job application
6. Save multiple resumes in different formats
7. Save text as well as video cover letters

For the recruiters below services is built

1. Search for the resumes

2. Save resumes
3. Post jobs with filters and questionnaires which jobseeker has to file during job application
4. Track applications
5. Filter resumes

- Worked as a lead developer
- Extensive use of EXTJS framework to build the User Interface (UI)
- Built background engine in VB.NET to support the website
- Coordinated with SEO to implement search engine optimization work
- Was involved in database designing, writing stored procedure & User Defined Functions

Environment: MS SQL 2005, .NET FRAMEWORK 2.0, ASP.NET, C#, WINDOWS 2003 SERVER, JAVASCRIPT, XML, XPATH, WEB SERVICE, AJAX TOOLKIT

Client Name: Nurture3

Project: XML to Doc

Application Type: Desktop Application

Team Size: 1

Description: This desktop application was built as a background engine. Its main objective was to convert the data fetched from the database into a doc file. Once the data was converted, this doc file would get saved into the database so that the next time the user requested for the resume, the system could just pull it from the database and complete the user's request.

- Worked as a Lead Developer in this project
- Directly interacted with BDM (Business Development Manager) to get their requirements and created specs and took action on it.
- Coordinated with HTML team in designing the XSLT
- Was involved in database designing, writing stored procedure & User Defined Functions

Environment: MS SQL 2000, .NET FRAMEWORK 2.0, VB.NET, ADO.NET, XML WORD DOCUMENT, XML, XPATH, XSLT
